3 Came here to say this. She should be fucking afraid. They should all be fucking afraid. These mother fucking pedophile traitor pieces of shit have robbed us blind, try to ruin our lives, and have mortgaged our children's and grandchildren's and great grandchildren's futures so they could fund their pet projects and money laundering schemes.

A trip to the guillotine/gallows is too good for these fucking traitorous grifters, they deserve to be tortured to death, dark ages style.

We are going to take our country back from these traitors.

15 Just because they are worried we are going to kill them... doesn't mean we shouldn't...

▼ They shattered the social contract when they stole the election... They deserve everything they get...

▼ IF there is any violence, it was caused by whoever decided to go ahead with the steal on November 3rd. All the blame for whatever may happen is on those traitors' heads.

2 We won't start the violence, but one idiot whether it be citizen/cop/agent(boy would that be my favorite) tries to start any shit and you will have the violence you so desire.

Why are her eyes so off? One is much larger than the other...and she looks like she's seething hatred.

1 How long have antifa been trump supporters? is this recent? Someone needs to tel them to stop being violent, because that's not what trump supporters do.
